TITLE: METHOD TO OBTAIN A CLOTH SUITABLE FOR CLEANING ANY TYPE OF SURFACE

PRELIMINARY AMENDMENT

Commissioner of Patents
and Trademarks
Washington, D.C. 20231

Sir:

In conjunction with the filing of the present application, and prior to an initial Official Action on this matter, please amend the above-identified application as follows:

IN THE CLAIMS

In Claim 1, please substitute the claim as follows:

1. (Amended) Method to obtain a cloth suitable for cleaning any type of surface, the surfaces being glasses, or metallic wooden, plastic-coated and other similar surfaces, comprising: forming a cloth of micro-fibres, cloth of polyamide and/or polyurethane and/or polyester, and before being used and once for all, dipping said cloth in water brought to the boil for about 10 minutes.

In Claim 2, please substitute the claim as follows:

2. (Amended) Method as claimed in claim 1, wherein said cloth is comprised of micro- fibres of polyamide (50%) and polyurethane (50%).

In Claim 3, please substitute the claim as follows:

3. (Amended) Method as claimed in claim 1, wherein said cloth is comprised of micro- fibres of polyamide (50%) and polyester (50%).

In Claim 4, please substitute the claim as follows:

4. (Amended) Method as claimed in claim 1, wherein said cloth is comprised of micro-fibres having compositions which may vary of about 20%.

In Claim 5, please substitute the claim as follows:

5. (Amended) Method as claimed in claim 1, wherein said cloth is comprised of fibres, suitable to stand temperatures from -30°C up to +150°C.

In Claim 6, please substitute the claim as follows:

6. (Amended) Method as claimed in claim 1, wherein said cloth has an absorbing action.

In Claim 7, please substitute the claim as follows:

7. (Amended) Method as claimed in claim 1, wherein said cloth comprised of micro- fibres causes, together with water, a soap-like effect which entraps dirt.

In Claim 8, please substitute the claim as follows:

8. (Amended) Method as claimed in claim1, wherein said micro-fibres of the cloth have to be structured so as to repel the water containing the dirt as soon as they are soaked with clean water.

In Claim 9, please substitute the claim as follows:

9. (Amended) Application of the method as claimed in claim 1, further comprising removing dirt without using chemical detergents.

In Claim 10, please substitute the claim as follows:

10. (Amended) Application of the method as claimed in claim 1, further comprising removing dirt, dust, sand only with water.

REMARKS ON PRELIMINARY AMENDMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

In this preliminary amendment, please consider the following remarks in conjunction with the amendments to the above-identified application as follows:

REMARKS

The present Preliminary Amendment has been entered for the purpose of placing the application into a more proper U.S. format. In particular, certain grammatical and idiomatic inconsistencies have been corrected by amendment to the specification, and the application is corrected for certain typographical errors found in the originally submitted application. No new matter has been added by these amendments.

The Claims have been amended so as to conform with U.S. requirements.

Applicant respectfully requests that the present Amendment be entered prior to an initial Official Action on the present application.

Respectfully submitted,

10-30-01
Date

VERSION WITH MARKINGS TO SHOW CHANGES in the PRELIMINARY AMENDMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

In conjunction with the filing of the present application, and prior to an initial Official Action on this matter, please amend the above-identified application as follows:

IN THE CLAIMS

In Claim 1, the claim has been amended as follows:

1. (Amended) Method to obtain a cloth suitable for cleaning any type of surface, the surfaces being glasses, or metallic wooden, plastic-coated and other similar surfaces, [characterised by the fact that it is made by means] comprising: forming a cloth of micro-fibres, cloth of polyamide and/or polyurethane and/or polyester, and [by the fact that,] before being used and once for all, [the] dipping said cloth [is dipped] in water brought to the boil for about 10 minutes.

In Claim 2, the claim has been amended as follows:

2. (Amended) Method as claimed in claim 1, [characterised by the use of a] wherein said cloth [made by] is comprised of micro- fibres of polyamide (50%) and polyurethane (50%).

In Claim 3, the claim has been amended as follows:

3. (Amended) Method as claimed in claim 1, [characterised by the use of a] wherein said cloth [made by] is comprised of micro- fibres of polyamide (50%) and polyester (50%).

In Claim 4, the claim has been amended as follows:

4. (Amended) Method as claimed in [claims 1, 2 and 3, characterised by the use of a] claim 1, wherein said cloth [made by] is comprised of micro-fibres having compositions which may vary of about 20%[of the above indicated ones].

In Claim 5, the claim has been amended as follows:

5. (Amended) Method as claimed in claim 1, [characterised by the use of a] wherein said cloth [made by] is comprised of fibres, suitable to stand temperatures from -30°C up to +150°C.

In Claim 6, the claim has been amended as follows:

6. (Amended) Method as claimed in claim 1, [characterised by] wherein said cloth has an absorbing action [of the cloth].

In Claim 7, the claim has been amended as follows:

7. (Amended) Method as claimed in claim 1, [characterised by using a] wherein said cloth [made] comprised of micro- fibres [that cause,] causes, together with water, a soap-like effect which entraps dirt.

In Claim 8, the claim has been amended as follows:

8. (Amended) Method as claimed in [claims 1 and 7, characterised by the fact that the] claim1, wherein said micro-fibres of the cloth have to be structured so as to repel the water containing the dirt as soon as they are soaked with clean water.

In Claim 9, the claim has been amended as follows:

9. (Amended) Application of the method as claimed in [previous claims, for] claim 1, further comprising removing dirt without using chemical detergents.

In Claim 10, the claim has been amended as follows:

10. (Amended) Application of the method as claimed in [previous claims, for] claim 1, further comprising removing dirt, dust, sand only with water.
